Get Maximum Reliability and Quality for your workspace

The Ricoh SP C261DNw Colour Printer and SP C261SFNw Colour Multifunction Printer (MFP) are compact in size and produce impressive colour documents that give your business the efficiency and support it deserves.

These printers pack high productivity and easy functionality into a small footprint, with Ricoh technology that delivers years of reliable operation.

Equipped with wireless connectivity, these printers provide flexibility in where you place them, and mobile printing is made easy from your smart devices.

- Print speed of up to 20 ppm to raise work productivity and produce professional output at up to 2,400 x 600 dpi resolution
- Offers a USB 2.0 Type A port for connection to PictBridge-enabled digital cameras
- Automatic duplexing as standard to enable double-sided printing and minimize paper consumption
- 4.3" full colour LCD panel that simplifies operation with easy to read screen and large keys and icons for menu navigation (Ricoch SP C261SFNw)
- 50-sheet Single Pass Document Feeder (SPDF) that captures both sides of duplex originals in a single operation, improving productivity of scanning, copying and faxing (Ricoch SP C261SFNw)

Added Flexibility, Convenience and Mobility

Ricoh SP C261DNw and SP C261SFNw offer standard wired and wireless networking that extend the use to a wide variety of smart devices. You can connect your smart devices directly to these printers and easily print on-the-go, no printer drivers required. Multiple types of mobile device printing are supported, including Apple AirPrint™, Google Cloud Print™, and Mopria mobile printing. The embedded Near Field Communication (NFC) tag on the front of the printer or MFP allows you to perform tasks from Android™ devices swifly— Simply tap the NFC tag with your smart device to print with the RICOH Smart Device Connector App, or easily scan documents with the RICOH SP C260 Scan App.

Efficient and Cost Saving Functionality

Automatic duplex printing is readily available on Ricoh SP C261 Series and allows you to reduce paper consumption and contributes more to saving natural resources. Enjoy more value with added control from the printer or MFP — such as limiting colour print functions to save on toner supplies by adding restrictions with user codes. The printer or MFP gives you even more control over operating costs by letting you restrict users from performing additional functions. Designed to maximize efficiency, SP C261SFNw is equipped with Single Pass Document Feeder (SPDF) that accelerates scanning operations for duplex original or multiple-page documents, saving more time to complete these tasks.

Ease of use with 4.3" Full Colour LCD Touch Panel (SP C261SFNw)

Navigate tasks and manage settings easily from the SP C261SFNw's user-friendly 4.3" colour touch panel. Plus, the panel offers at-a-glance job and supply status monitoring. With a customizable Home screen, you can register up to 12 of your favourite jobs using the touchscreen for quick recall, so you can perform tasks on your MFP even faster.

Simple All-in-One cartridge and Expandable Paper Capacity Offering

Simplify your workload with unmatched convenience that builds on Ricoh's legacy of affordable and time saving innovations for the workplace. You can change the top-loading, all-in-one toner cartridges easily without help, and without mess. For longer, uninterrupted print runs, add an optional Paper Feed Unit to maximize the paper capacity of up to 751 sheets.
