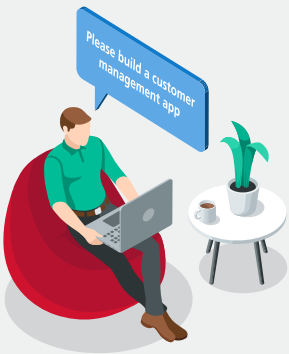
# RICOH AI App Creator

## You ask. AI builds.

Turn frontline ideas into apps and workflows.

## How it works

### 1 Describe what you want to build



Share your idea, such as:

*"I want to create a quotation management app."*

### 2 Redefine with AI

Chat with AI to develop your idea and fill in the details.

### 3 Review and launch with one click

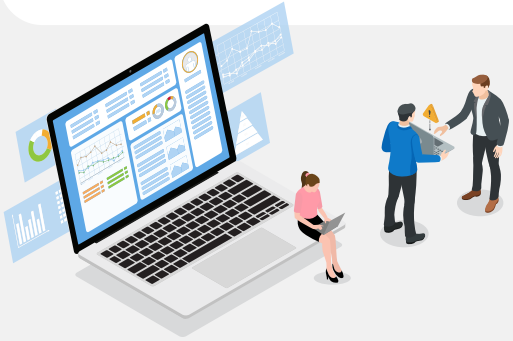
Your fully functional app is live and ready to use!

## Are these challenges holding you back?

### Frontline employees

"I have ideas to improve our workflow, but I don't know where to start..."

"It's not worth asking IT, but spreadsheet isn't enough..."



### IT Department

"We want to support requests, but we're short on resources..."

"We've introduced RICOH Kintone plus, but it's not being fully utilised..."

## RICOH AI App Creator helps your team move forward.

Anyone can create valuable apps through simple conversations with AI. It lets frontline staff build what they need, reduces pressure on IT, and accelerates your digital transformation, one app at a time.

# Why Choose RICOH AI App Creator?

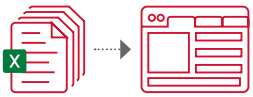
**1**

### AI-powered app creation —just say what you need

Easily accessible apps and workflows for non-technical teams

**2**

### Tailored to your workflow



Integrates your data and workflows so everything stays connected and consistent.

**3**

### Instant customisation

Fine-tune your app with AI support so it works just the way you need it to
